WHO ARE WE?
Based in a village just on the outskirts of the old market town of Bedford, emc design is one of the UK's leading design agencies for the publishing industry.

We are passionate about what we do and have built up an unrivalled reputation in producing high-end multi-component (print & digital) resources for international educational publishing markets.

OUR VALUES

Excellence – We strive to exceed expectations in everything we do. From the quality of our work, to our consistent approach to standards, exceptional creativity, technicality and delivering to deadlines.

A first-class company – It’s very important to us that we maintain our position as one of the best editorial design agencies in the UK; not only for our clients and suppliers, but also for our staff.

Constantly improving – It’s the small things that count. By constantly making small improvements we can have a significant impact – on our work, our industry and our community.

Best service – Quality, accuracy and creative excellence are fundamental to providing the best service, and we work hard to communicate clearly with our clients and suppliers.

Our community – From supporting local events and charities to engaging with our industry – community and people are really important to us.

Our working environment is really important to us and our studio space is open and light with areas to eat and relax. Just 4 miles from the centre of Bedford and with good travel links to the M1, A1 and London, our studio is fully air-conditioned with super fast broadband and space to grow for the next few years. There’s also lockable bike sheds and showers for those cycling to work.
WHO ARE OUR CLIENTS?

Our clients are some of the top publishing companies in the world, and they choose their external partners very carefully. Clients return to us because we have a team of exceptional people who deliver stunning design, technically accurate files, and exceptional creative assets, on budget and to deadline.

We are proud to include as regular clients: Cambridge University Press, Oxford University Press, Springer Nature, Pearson Education (UK and USA), Cengage and National Geographic Learning, UCL's Institute of Education Press, Kogan Page, Nowa Era, Scholastic, Folens, Edco and Illuminate Publishing.

A large proportion of our work is in the field of English Language Teaching (ELT). This area presents some of the most complex material, structurally and visually, and thus provides some of the greatest editorial design challenges. We are also currently working directly with authors.

“Publishing is a fast-moving business that thrives on creativity and collaboration. With over 100,000 books published each year in the UK alone, publishing contributes more to the British economy than any other creative industry.”

Anna Faherty, Visiting Senior Fellow, Publishing Programme, Kingston University
